

2013 Idaho Wolf Activity

Documented, Suspected & Reported Wolf Observations¹

2012-13 Known Locations²

- Documented Pack
- Suspected Pack
- Terminated Pack

2012-13 Estimated Locations³

- Documented Pack
- Suspected Pack
- Terminated Pack

2013 Public Observations⁴

- Multiple Wolves Observed
- Single Wolf Sighted
- Not Specified

Wolf Management Zones

Notes

1. This map is provided for management purposes and should not be used for data analysis. Do not release these data to third parties without first contacting the Idaho Department of Fish and Game or the Nez Perce Tribe.

2. Known Locations were collected and analyzed by Idaho Department of Fish and Game, the Nez Perce Tribe, Montana Department of Fish, Wildlife and Parks, Wildlife Services, the University of Montana Cooperative Wildlife Research Unit and the National Park Service. Pack locations are 95% fixed mean minimum convex polygons of GPS, telemetry, research observations and wolf mortalities for collared and uncollared animals from 1/1/2012 - 12/31/2013 with outliers removed. See wikipedia.org/wiki/Home_range for more information on using minimum convex polygons to analyze animal movements. If the pack did not have any observations in 2013 it is not depicted on this map.

3. Estimated Pack Activity was determined by biologists from research locations, public observations and incidental observations from 1/1/2013 - 12/31/2013. These are displayed as 9.8 mile radius circles consistent with pack territories in Idaho.

4. 2013 Public Observations collected on the Idaho Fish and Game website and reviewed by staff biologists. Confirmed and possible observations from 1/1/2013 - 12/31/2013 are displayed.
