

# GET TO KNOW YOUR WATERSHED

## **Bull River: Past, Present and Future**

Saturday, May 7 @ 9:00 AM MST

Bull River Guard Station

*Come learn about the historical ecology of the Bull River and changes that have occurred over the last 150 years, current impairments, and ongoing work to help restore the Bull River's ecological function and capacity to support water quality and native fish and wildlife species.*

Led by Mark Vander Meer

## **Beavers on the Bull River:**

### **Benefits and Challenges**

Saturday, May 14 @ 9:00 AM MST

Bull River Guard Station

*Come learn about the role of beavers in the Bull River and systems like it. They are a natural part of the system but present huge challenges to restoration efforts in disturbed areas.*

Led by Amy Chadwick
